

Croco-1 Pedal Powered Water Bike

The Croco-1 water bike is a high performance pedal-powered bike that allows you to ride in traditional bicycle position to enjoy sports on any peaceful water. Made of aluminum alloy with baking varnish, it has concise quick release design, relatively light weight, and can be placed and moved around in a car trunk after being folded. Driven by surface piercing propeller, it can be ridden through shallow waters. The directional control system with no rudder features is stable, reliable and easy to maintain.

Non polluting, easy to ride, lightweight, safe and stable, this water bike is an ideal choice for you and your family enjoyment on rivers, lakes, resorts and seaside.
